Full-time internship: 25 Jan - 23 Apr 2027

PROFILE

Software Engineering student who enjoys making complex products feel clear. My work spans bilingual client journeys, interactive capture tools and shared-calendar prototypes, with attention to responsive layouts and interaction states.

EDUCATION

Sunway University | Bachelor of Software Engineering (Honours)

Expected Aug 2027

Dual-award programme in partnership with Lancaster University

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, HTML, CSS, Dart

Interfaces: React, Next.js, responsive layouts, RTL localization, accessible interactions

Testing and tools: Playwright, Vitest, Electron, WebGL2, Git, GitHub Actions

Spoken languages: English (fluent), Arabic (native)

CLIENT PROJECT EXPERIENCE

Experts Marine | Client website and booking UX

Oct 2026

Client project | English and Arabic, RTL layouts, responsive web

- Rebuilt English/Arabic customer pages with RTL layouts, real media, six experience packages and a three-stage booking-request flow.
- Implemented date, guest and departure validation, add-on pricing and deposit summaries, keeping the existing booking system and bilingual structure.

SELECTED PROJECTS

Photoshoot | Photo booth for Windows and web

Jun 2026 - Present

TypeScript, Electron, WebGL2, MediaPipe | Windows v1.3.0 released

- Implemented 25 live effects and refined capture, gallery and keyboard interactions with WebGL2 and MediaPipe, adding Windows pixel checks for preview and capture.

Planket | Shared-calendar prototype

Oct 2026 - Present

Next.js, Capacitor | Web demo; native builds in development

- Built a shared-calendar prototype with side-by-side availability, crew planning, RSVP alternatives and rescheduling flows using Next.js and Capacitor.
- Adapted navigation across phone, tablet and desktop layouts, with reduced-motion support and a web demo using local data.

Tajweed | UX and frontend collaborator

2026

Collaborative project with Hatem Samad | Next.js, TypeScript

- Authored the redesign specification and contributed staged lessons, Journey navigation, recitation guidance and the test setup alongside the original developer.

LEADERSHIP

Sunway Cybersecurity Club | Digital Marketing Executive

Jan 2026 - Present

- Coordinate event and recruitment content with committee members, translating briefs into graphics, LinkedIn posts and communications for cybersecurity meetups and industry visits.
